went up on the hill to visit Miss Mattie, and found her in the middle of an exercise in dress making. However, she cut it for a few minutes, and I told her how I had left you all, and of good time I had had.

She was delighted to hear from home, but said that she could

This is the week of the great opera. It is very popular — the other day, I happened to be passing the building at about eleven o'clock, and I saw people standing on the in line, on the steps and down on the side walk, waiting for the ticket office to be opened at seven. I imagine

I often think of the hours we spent so pleasantly together in the Court House. I wonder if Judge Hussey has made another compromise decision in Prescott's case.

Those drives between Bowdoin and Port Antonio which I used to enjoy so much, seem a long way off now. I wonder how the old Arden looks. How sleepy we were on that last drive when we started early ——

that Miss Mattie is
enjoying them very
much.

I was quite surprised to
learn that two of our

At Bowden, Mr Langley handed me a cane of cocoa nut wood which he said you sent me. I am very much pleased with it; thank you very much.

The little office boy brought me the box of slips and the bird skins which he had laid away very carefully. The slips have taken root, I think.

Form No. 3.

THE WESTERN UNION TELEGRAPH COMPANY.

ALL MESSAGES TAKEN BY THIS COMPANY ARE SUBJECT TO THE FOLLOWING TERMS:

To guard against mistakes or delays, the sender of a message should order it REPEATED; that is, telegraphed back to the originating office for comparison. For this, one half the regular rate is charged in addition. It is agreed between the sender of the following message and this Company, that said Company shall not be liable for mistakes or delays in the transmission or delivery, or for non-delivery, of any UNREPEATED message, whether happening by negligence of its servants or otherwise, beyond the amount received for sending the same; nor for mistakes, or delays in the transmission or delivery, or for non-delivery, of any REPEATED message beyond fifty times the sum received for sending the same, unless specially insured, nor in any case for delays arising from unavoidable interruption in the working of its lines, or for errors in cipher or obscure messages. And this Company, is hereby made the agent of the sender, without liability, to forward any message over the lines of any other Company when necessary to reach its destination.

Correctness in the transmission of message to any point on the lines of this Company can be INSURED by contract in writing, stating agreed amount of risk, and payment of premium thereon at the following rates, in addition to the usual charge for repeated messages, viz: one per cent. for any distance not exceeding 1,000 miles, and two per cent. for any greater distance. No employee of the Company, is authorized to vary the foregoing.

No responsibility regarding messages attaches to this Company until the same are presented and accepted at one of its transmitting offices; and if a message is sent to such office by one of the Company's messengers, he acts for that purpose as the agent of the sender.

Messages will be delivered free within the established free delivery limits of the terminal office. For delivery at a greater distance, a special charge will be made to cover the cost of such delivery.

The company will not be liable for damages in any case where the claim is not presented in writing, within sixty days after sending the message.

THOS. T. ECKERT, General Manager. NORVIN GREEN, President.

My dear Mr Baker, 1.2.2

I was so careless as to leave my napkin ring at Bowden.

When you come to America will you please bring it and forward it to me?

I suppose Mrs Baker and Mattie are now here or I would not trouble you.

The ring has my first name on it.

And may I ask you to give Mr Kennedy

my address if he decides to have a home teacher for Mabel this year.

Mrs Kennedy said she was not fully satisfied with the school Mabel attended & perhaps they will do differently this winter.

I thank you for forwarding my mail.

Give my love to Mrs Baker and the children, and kind regards to Captain Baker and Mr Joshua.

Can you possibly give orders to hasten the commencement of the fence round the house. The cattle & horses are a great source of annoyance to me, trampling down the tennis court and breaking the edges. I shall have to go to the expense of having the surface re-levelled. Surely it will not take much time to run up the fence. At present I am unable either to put a man on to bill the place, or to do anything in the way of flowers.

Hoping you can help me and with kind regards in which Mrs Neil joins me Yours sincerely

Miss Henderson is sending through you to Lowell for her bicycle and I now write to ask if you have not time to do as much as you did last time, if you will write to Lowell & ask their prompt & kind attention. A wheel like hers which is new will be quite satisfactory. I am really sorry I have to trouble you again on the subject of wheels, but I am sure you will help me out. Miss Henderson

sent for a B/E last week and had it taken out in Dowells name as she was afraid to bother you with it, but Hislop kindly assured her you would help in the matter & so he is sending the bill on to you. Mrs Neil has learned to ride hers & so has Miss Henderson and are both delighted with their new means of locomotion. I am bidden to again thank you for your kindness.

surprising how early men contrived to get along without iron, but still they did it & no doubt they also contrived to get considerable happiness out of life, as well as venison & buffalo-steaks.

I am glad you like my little picture. The effect I tried to get was sunset with its warm colors and I tried to get the schooner yacht to look as though she "moved." There is no danger however of her running out of the picture. Of the sea, I cannot say that those who look at it will feel

like the man in Max Adeler's "Out of the Hurly-Burly" who while looking steadily at a sea-picture in an artist's studio apparently became so convinced it was real that he actually was observed to divest himself of his clothing & prepare to plunge into the picture!!!!

My dear Baker

I went to Borden yesterday to see you and to tell you of my appointment to Nanoose Bay. I cannot tell the exact day we will have to leave. That depends upon Dr French-Mullen getting a house. He tells me he has made application to you for Wheelgield: as of course this is the proper spot for the Doctor of this District, being central for the Estates and near to the Hospital.

I shall be sorry for many reasons to leave this District, but of course it is not far away, from the Bay.

and now that we know we are to move, we feel anxious to get it over, so that I may get settled and start business in my new District.

I was very sorry to miss you yesterday as I went down specially to report to you.

My wife intends calling on Mrs Baker some day next week, and joins me in kind regards

Yours Sincerely

I have since my interview with Capt. Baker had a conference with Messrs. Dear Mr. Baker.-

Your note arrived on Saturday last, and Thank you so much for your kindness in attending to my errand.

I sent the bill to my father and he will write you, and forward a post-office order in a few days.

I am very glad it was permitted you to have such a quick, pleasant

9.13.32

passage down to Jamaica.

In this time, I have no
idea of one day, in
America seem like a dream,
and you feel as if you
had always been there.

I wish you all a pleas-
ant winter and hope to
see more of the whole
family another year.

With many thanks for all
past favors and they are
indeed many!)

Sincerely your friend,

Fannie B. Pettee.

Dear Mr Sikes

I [illegible]

[illegible] a letter from home, and in it was the book which I read with so much pleasure, in Jamaica, last winter, and for which I gave you a standing order to purchase for me.

I thank you very much for remembering the errand. All these months,

sorry, but I do hope he has attended to the matter before this. It was unintentional on my part as well as his.

We read of Capt. Freeman's death in the papers and were sorry to learn of it. I suppose it will make some change in the Station there.

"Daisy" held me a victim for three weeks, and they have all been ill at home & nearly two months.

I suppose the Russian Ingleses has a stacked farmhouse!

[illegible] may have caused you.

In the sending of the [illegible] insurance, you will not see this, I will send an enclosure so as not to be same. If you will kindly mail it, I will send the insurance, at once.

My father has so many matters on his mind that it is difficult for him to remember to attend to little things, and I found out he had again neglected to send the insurance premium. I am

Bertie is doubtless counting the months now it will be time to quit Canada again. I hope I shall see him and the rest of you during the summer.

Please don't forget to fill for "Our Little Folks", and give my cordial regards to all.

Dear Friend Loren

Very many thanks for your kind and courteous letter enclosing P.O. Order for Twenty Seven dollars for Greeting and Arfosy Subs. to 31 Dec 1896. I am so sorry to hear of poor Richards sad and sorrowful Trouble. He has my deepest sympathy

and so have you all in what must have been an afflictive event for your entire circle - Your news of the other members of the family interested me very much - I have still a warm place in my heart for you all and often think of the pleasant times we used to have in dear old Jamaica. I seldom hear from anyone there now and your kind and friendly letter was to me like cool water to a thirsty soul - "Kind words can never die" - I am so thankful for the opening your good Father has made for my young friend Mr Glover! I think he will prove a faithful and valuable worker to your firm - He will leave this by next mail leaving here on 15th inst - Now it has come to the point his present employer would be glad to keep him. The mean man has evidently over reached himself -

What an old bachelor you are becoming! I made sure that you had by this time jumped off the rock of single blessedness into the troublesome waters of the Sea of Matrimony! Are you afraid, of what an old Cynic had said "Courtship is bliss but marriage is blister"! Well, you do well to be cautious friend Loren. It is a serious business for a man to tie a knot with his tongue that he can never undo with his teeth. God speed you in the important affair. Our love to you all - Yours in Sincerity David Reynolds

My Dear young friend

Your very kind letter of the 16th ult, so fraught with kindest Expressions of friendship and good will, was gratefully received. I was very happy to learn that yourself, Father & Mother and the family were all well. I am also happy to say that myself and family are very comfortable; this is the greatest blessing heaven can bestow. I called at the P.O. Office and got the document you sent me, it came in perfect order, and I assure you I am highly pleased to be the possessor of an instrument containing the signature of My Great Grandfather your [illegible]

younger life has been so full of care and effort for a livelihood that I scarcely had the time for looking up our genealogy, but as far as I can ascertain you and myself, have reason to thank Heaven that we have no ~~reason~~ cause to be ashamed of our genealogy. their G.G. Grandfather I think was a man of Exceptional ability. you speak of my making you a visit, it would indeed be a very great treat for me to come to your far away home and if I am well Enough, and circumstances will permit, I shall gladly accept your kind invitation. you will smile when I tell you that my Extreme of travel has taken me not farther East than the Loony of Grace's bank, not quite so far as Norfolk Va., you will be kind Enough to write me about the time to start and ship a coon on. what appear like a Mole hill to young men like yourself, look

I have been sick de mucho, and I now have a serious heart trouble that I have lost about all the sand (as they call it these days) I ever had but your good father will tell you I had my share once. I will not tire you by writing more this time, but will bring this Epistle to a close

My Dear Young Friend,

Your of Feb 8th came duly to hand. I was happy to learn that you were all very well. I am very thankfull to be able to say that my family are well, and myself so well as to be able to get about. I should have answered yours long ere this, but I have been waiting hoping to see the way open so I could take advantage of your fathers very kind and most generous invitation, but as has been the case with me for the past three winters, I took a cold the last of Feb. and had what the Doctors called the grippe (it has been very prevalent this

winter) I was in the house three weeks. The next obstacle that turned up, one of my tenants got behind two months on his rent and I had the bother of getting him out, and trying to get another and so things have occurred that seem to forbid my making a visit to your beautiful Island home this season. I am fully assured of the very cordial welcome I should have received, Uncle David (your Grandfather) had a heart as large as an Ox he was the very best friend I had in my young days. I always revere his memory, and your father could not be small and contracted unless he fought against his very nature, but the season has so far advanced and it looks like such an undertaking I will defer my visit for the present. If we all live (and I pray we may) I shall see you all in a few months in Boston and I intend

to see you at your home in Wellfleet.
Please tell your father I shall consider
that invitation held good for one year
surely, and I doubt not but I shall accept
it some time. I would undertake to write
you of Events that have occurred on the
Cape and in the City but I suppose
you have correspondance with relatives
and friends that keep you posted. I thought
perhaps you would like to look at the
C. C. and Bay for a slight amusement.
you get Boston papers once a week
when I was a large boy we used to get
a Boston paper weekly no paper oftener
than that, just think what a change
now you get a weekly in Jamaica
five thousand miles away. Surely the
world does move. Ask your father
if he remembers the night we took the
trip to Provincetown in Hall Weeks
two horse wagon. Dennis Newcomb-

I am Mr. Freeman myself I can't remember the others but I think there was some of us and how they assaulted us and we barely escaped, but I wont tire you by writing more this time, if you can spare the time write me a good long letter as soon as convenient your letters are fully appreciated I assure you, trusting this will find your Father Mother & yourself and all the family in good health with love to all I remain close, with Kindest regards and best wishes to you all I am your very sincerely

Dear Mr Baker,

Your kind letter of the 4th inst duly received.

I served the first six months at a salary of 5/- per week, but my Board did not cost my anything as I was put up with my friend Mr. Richards.

After the six months Mr. Richards said that he could not manage to keep me any longer, & then got a place to stop at 6/- per week which the Company paid and allowed me 4/- per week for clothing

I am very glad to know that Theophilus is getting on well and if he can only climb the "ladder" as I have done I feel sure that that would be all that could be expected.

Thanking you for your kind attention towards him, and soliciting a continuation of the same,

My Dear Mr Baker Jr.

Your kind letter of 23d inst reached me this morning. The book came to hand last week and I have read it through. I do not think it equal to Kate's second book in sparkling wit and piquancy, yet it has some bright passages. Gooseville she says is actual Foxboro, Mass. I do not know precisely where that is. I wonder if Miss Higgins is up in Mass. localities, so you can advise me near what is all known town it is. Miss Kate has undoubtedly immortalized it by her facile pen and brilliancy. We are pleased to learn that your mother is steadily improving in health since the voyage down. I regretted I had not the opportunity to make her acquaintance on the voyage. However, I shall reserve that pleasure, when I make my anticipated visit to your fathers hospitable home, in the not remote future. My first duty will be due to myself, in the effort to eradicate the last traces of my Sciatica. I had purposed to try Bath thermal springs, but as they are in the rainy belt, I have changed my plan to go first to the Milk River Springs where

the Hand Book states there is less rainfall in the winter months— The dampness of the atmosphere affects my limb unfavorably here.

I anticipate much pleasure with you in viewing the minute things and insect invisible to the naked eye. I am sure you will derive much profit from the use of your microscope. I wouldn't wonder if the family would become greatly interested, also, if you are successful in mounting the specimens.

In reference to your book, I will send it to you by post if you elect, or bring it with me when I come. I shall probably read it over again, to fix Kate's argument ~~more exactly~~ in my memory.

Mr and Mrs Kennedy join me in sending kindest regards to your lovable father and all the family.

I can say that so far as my present experience of Jamaican life and production extends I am more than delighted. I am reading the Hand Book with attention, and find it full of valuable information.

I am and so forth, Very Truly

Yours,

Samuel T. Rogers.

P.S. Will probably remain at Buff Bay some weeks longer, unless sciatic troubles threaten too imperiously.

I do not say price of eight cents per picture will be satisfactory to you. On your letter of Dec. 4th notice that you speak of not having heard from me, in answer to your question as to the buying price of films. I work for a concern in Boston, but in the climate where we are I cannot do as many films as used the older exposures you would get, and not many that in the time you obtain rolls of film for 25 or 50 exposures, seem to take them all and that is an object, then you would be sure of having fresh films, & could only then sell for ... cents ... or ... Dear Mr. Baker,

We hope to have a Demorest Contest at Belle Castle on Thursday night the 21st inst. to begin at 7 o'ck, and would be very glad if you would kindly act as one of the Judges.

It is a difficult matter to secure suitable judges, and if you can see your way to act it will be a great help to us in our Temperance work.

Mr. Parr has kindly promised to act, but two more are required.

Hope if you come that you will

remain at Beck Castle for the night
Mrs Tibbles & myself will be very
pleased if you will.

Allow me to give you & yours a
hearty invitation to our Home
service here on Sabbath next.
Rev. J. Gordon Somers of Ballaghs
has promised to be with us & will
D.V. preach at 11 & 7 o'clk.

Can you help us with any flowers
for decorating the Chapel? We
hope to decorate it on Saturday.

My dear Sir
I received your letter last Tuesday and was much pleased to hear from you and that you had received the coat alright. I hope by this your health is better than it was on board of the schooner and that it may keep on improveing. About a place on one of your steamers I should be much pleased to have it, and would thank you very much for getting it for me. I have never been steamboating but I have a good head and I could soon learn

what is necessary. Capt Rose has asked me to go mate with him again but I have not given him an answer as yet. I don't know yet when he intends to sail, so if you will promise to get me a place I wish you would let me know before the last of the month, so as I can let him know. I received a letter from Mrs. Sines last Friday she made me a present of a gold ring and has promised to send me her likeness, she will leave for Scotland in about a week or so. Mr Loren Baker

Dear friend

I arrived here today after visiting friends at Falmouth and Dover.

The ride from Bellflat to Falmouth was quite dusty. Falmouth looked very pretty and home-like. I believe I spoke to you about our building at West Falmouth. When you return to Jamaica I would like "let on" to Arthur, as we intend it as a surprise to him.

I enclose two pictures taken at Bellflat. One you see is taken over to the life saving station where you ~~sodaed~~ so kindly took me. The other is of the

sand hills looking out upon the harbor where we had those delightful sails.

The other five pictures taken of your visits and "Bose" and the one ~~taken~~ of the party in the life boat were taken on the same plate, and when I developed them, I found a sad "mix up" on that plate. The dog and boat were intermixed with duck trousers while one oar appeared like a boat pin through Miss Baker's hair. As soon as I can I will send the finished pictures. Those enclosed will of course, fade.

The "Alco Vapor" launch catalogue I promised to send I cannot lay my hands

me at present, but will send it as soon as I can.

My mother and father join with me in thanking you for your kind hospitality to our mate at Billfleet and also in wishing to be kindly remembered to your people.

Hoping to see you at Falmouth with your boat I am

My dear Sir,

A ride yesterday of a few miles, through mud, and above banks from one to five feet high on either side of the road, brought very vividly to mind the contrast between this, and that most enjoyable ride my nephew Mr. McPherson, & myself were permitted to take with you through your kindness, less than two weeks ago, our roads lined on either side, with lush & beautiful tropical vegetation. When one thinks of the difference, it seems almost like awaking from a dream.

Fortunately for us who have resort

returned from the tropics the present month has been unusually springlike, & far from the cold March winds, we almost always have —

Mama thought many times since our return home, of your warm & pleasant island, and of all the variety of things we saw, and though our stay was necessarily limited, I think we improved our opportunity & saw really a good portion of the country, and formed a very excellent idea of its productions; for much of this we are indebted to the courtesies extended us by representatives of the "Fruit Co."; To Your father we feel very grateful, for his kindly interest in us, and to yourself and Mother, we have constantly recurring thoughts of the very kindly manner in which we were received by You both, and of Your efforts in our behalf, to render our stay enjoyable. and it will always be

Mr. L. D. Ross Jr.

one of the pleasant things to look back upon, your beautiful home with its pleasurable surroundings, and restful air will not soon be effaced from our Memories.

You have no idea how much we enjoyed the ride to Bath, the visit to the Springs, the bath, the stroll through the Botanical Garden with its rare & beautiful tropical plants, the country itself, and all that helped in any way to make our last day in Jamaica at "Rowden", so full of pleasure.

Kindly extend to Your Mother & father our warmest regard, and most sincere thanks for their kindness & courtesies to us, also bearing in mind that we wish You to accept for Yourself also, a full measure of the above

9.30.1.4

We hope that you will have a successful Yachting season, and that the new boat in process of construction, will eclipse in brain & speed all its predecessors, and future competitors

Trusting that this will find you all in the best of health,

HAUGHTON GROVE,
RAMBLE, P.O. JAMAICA.

September 8th. 1887.

Messrs. L. D. Baker & Co.
Port Morant.

Dear Sirs,

It has occurred to me that you might be willing to come to some arrangement with me about the Holland cocoanuts. I to undertake to sell, and you to buy, all we have at a fixed price for a stated time, say twelve months.

In case the idea should strike you favourably I will mention two or three points that would have to be agreed on.

That I may deliver when I like.

That the price shall be an average one for large and small nuts together.

That there shall be no rejections but that say 1010 nuts shall be counted for 1000.

That accounts shall be settled monthly.

My idea of the fixed price looking at those that have ruled for some time past is 4/- per hundred (of 101) for large & small nuts together.

I am Dear Sirs,
Yours faithfully,
A. Watson Taylor.

Dear Sir,

At the request of Mr. John Watson Taylor I forward to you in a small box a gold watch, with a chain, and attached thereto a "spade" guinea and a seal set with a common pebble having the word "Johnny" engraved on it. I understand from my brother that he has written to you about the watch &c., and shall be glad to hear that they reach you safely.

Dear Sirs,

I am in receipt of your favor of the 23rd. Inst. re leasing Holland Pen. Without binding myself I may say that I am willing to lease, but that I would not accept less than £500. p.a. for a five years lease.

Perhaps to facilitate matters you would answer the following questions: —

Who would the Lessees be?

Would you pay rent quarterly in advance?

Would you agree to strict covenants for protection of young Cocoa Nut plantations &c. and for payment of rent?

When I have your answers, if I decide to lease I can supply you with such accounts and information as you may require to assist in forming an opinion of the value of the property.

We have finished hucking for this year and I shall be obliged if you will settle for the Nov. & Dec. Nuts which I make out to be Nov. 11.701 large, 1.122 small — Dec. 8.611 and 670.

Yours faithfully, A. W. Watson Taylor.

Dear Sirs,

I have received your letter of the 27th. and instructed my overseer at Holland accordingly. I think that you have not understood my remark about Nuts not keeping. I look upon <u>all</u> <u>dropped</u> Nuts as coming under that description, and their number at Holland amount to about 20,000 a month. We never pull these as a rule and only did so when the demand was good in October & November last.

I would rather accept a lower price than 70/- now, if that would make any difference, on the understanding that you will take Holland nuts all the year round at the best price that you can afford. Although I am sending some to Port Morant as an experiment, it cannot compete with you even at equal prices as long as you buy at all.

Dear Sir,

I am in receipt of your favor of the 24th. Inst. in which you offer me 65/- (sixty five shillings) per ~~100~~ for Holland bocoanuts for the year, delivered and selected as usual, provided that you get all. I accept your offer.

I shall be obliged if you will not make the arrangement known until my next visit to the East which will be delayed for some time by sickness in my family.

I am writing to inform Mr. Hamilton

and to instruct him that he is to attend to your wishes should you at any time desire an extra quantity. He has standing instructions to deliver nothing but dropped Nuts unless he is requested to pull.

It will no doubt be convenient to you to make monthly settlements for the Nuts, and we had better close accounts for deliveries to end of this month.

The bunch of Bananas came all O. K. and only one bad one on the bunch and we are (My Wife and Me) are just enjoying them. Of course I have given some of them to my Mother Well. I am very much obliged to you for your kindness in sending them to me. I suppose that Joshua has or is in Kingston attending the Races. if I understand right they are to come off next Wednesday. I trust that he may meet with the best of success.

I have still some of the Jamaica Views on Exhibition in the window. And they have attracted the attention of lots of people. The Boston Yacht Club opens the 2nd of next week and there are a number of Yachts have been here in the Harbor.

Well the trees are all leaved out and the last rain has made the gardens look fine. (By the way I have peas in bloom now) How did the garden pan out up on the hill you know they were just coming up when I left. How is Mr Gatesgill Your father said he was waiting for the sap to run so he could but and Graft some Orange trees ha! ha! I guess they caught on to him

It was too bad that the Boston Pictures did not turn out better but if Joshua has her brought out this Summer I will be sure and get a picture that will do her justice. Were you do you think of coming out this way. Wish you would kindly let me know for if you come down on the Longfellow I wish you would come and take board with me in my new home. I will try and have a good fat Mackeral for you. They are catching a few now. They all run large and full of spawn. The Mackeral fleet have all gone down on the cape shore. Have not heard from them yet

We had news from my Father who has gone a Whaling when he 12 days out he had taken two Whales making 50 Bbls Sperm oil. Lat 37 Long 75 - this was the 12 of May so you see he has quite a nest Egg to start with.

I believe Mr Jarmin has been delivering to you during this week as asked for by you - but whether he will be able to continue doing so, is very doubtful, as I think that on Monday I will have to close with one of the two Contracts, now being negotiated for the year Ending in Feby 94. I am sorry you have not felt yourselves in a position to contract as you were the first Dealers that I wrote to, and would have preferred Contracting with you on several grounds. Our fruit

Do you go maying in Jamaica? It has been an early Spring for us & although yesterday was Mayday. When every one is supposed to visit the woods, only the children went. The hepaticas & bloodroot which are our chief Spring flowers were all gone. We do not have the May flower that Cape Cod is blessed with. The flowers of Jamaica are so lovely, you would laugh at our little Hepaticas. But the long tramp thro the woods & the exhilaration of getting the first flowers are not to

be despised. We have a good deal of fun. But I won't continue my essay on doing stones which is perhaps a little tiresome.

We were pleased to learn of Uncle Dorie's improved health. I hope he is entirely well. We were sorry Aunt Martha's picture was no better, we would have been much pleased to have had her photograph. Give my love to all the family please.

He came to Salem with a load of coal & as that vessel close by came over to S. Lion has seen him. Many since I have an Uncle Reuben said she was going to Jamaica.

By the way, Jane never described a Sunday in Jamaica to me. I wish you would give me a description of it in your next. I think perhaps you may suppose I intend to punish you for your delay by writing so long a letter. If you

The boys, or rather George, have the bicycle fever. Ernie has had a machine for some time but Geo never took the fever until this spring. For a long time, it was nothing but bicycle, + it isn't much better now. At first it was a little drier perhaps, being nothing but catalogues, prices lists + patents. Which didn't interest

me particularly. Now the machines are bought, & Geo can ride a little, I listen to hairbreadth escapes, headers + other accidents on the bicycle line. This is a little more exciting than pleasing. It would be useless for me to tell you the number of headers Geo has taken. I couldn't. There's another item they have along with the bicycle. The Gymnasium item has seized them. I had a little book entitled "How to get strong & keep strong" & they got hold of it + immediately practiced on Indian clubs + dumbbells & began. They

Dear Cousin Lou,

Your welcome letter received in due time. I was glad you found every thing in so fine a condition. I have already given a detailed account of the weather in a letter to Aunt Martha, and will repeat. Besides weather in America we have had an election. Perhaps you have forgotten

household on finding they have lighted up for a Democratic procession! All the procession marched through our street, and one night there were to be two. We heard the band coming near and lighted up. When lo! and behold, it was the democratic procession, and not of the right faith. They cheered us as they went by, enjoying the joke probably. We had eight processions go by. The best of all was the last. The Republican

about the excitement of a Presidential election. Here in Dover of course, the excitement was not so great as in many places as New Hampshire always goes one way, is Republican; but even the mild excitement was exciting. We have had Jacksonian Democrats, Jacksonian Republicans. The family with whom I board are Republicans, but my roommate, Miss Pore, is an out and out Democrat, So great have been the discussions on political themes. Imagine the consternation of a Republican

rejoicing over their victory. None felt sure
of the election until Wednesday evening,
and then they wanted to hear more of the
returns. So it was not decided there would
be any procession until Friday afternoon, and
it was to take place that evening. Then everyone
hurried to get his decorations ready. A
good many democrats had paid that they
would illuminate if Harrison won, & the
city was well illuminated for so short a

notice. There were very few dark houses. They have a way of illuminating here in N. H. I never saw before. They pour kerosene into saws and jails of saw dust until the saw dust is thoroughly soaked. Then, when the time arrives, they light it. It makes quite a brilliant light, but an awful smell. It has to be stirred constantly and Miss Pond I danced around with long sticks stirring the various jobs and jaws. You would

intended. Do you find her to your mind. I know of course that she must "immaterial" to you, but then I have a little curiosity to know whether she suits your requirements. I laughed over Capt. Jackman's confusion. I suppose a new thing causes quite a sensation on your land. By this time you have probably seen Eugene. Uncle Reuben writes mother that he expects

Like Mr Macawber I am waiting for something to turn up that shall turn me toward Jamaica but don't see as yet what it may be. My courage however is good yet!

I believe my hand writing is different with every pen. To night I have a very fine one and my handwriting is correspondingly small. I hope it will be legible. I have been very busy, garulous, & famous. I have been told melodiously persons. I suppose Ernie is with you. I told him to write me, but haven't heard anything as yet. I must write more but this is a sufficient infliction! Love to each one severally — Yours affectionately —

Dear Sirs

Yours favor 17th inst to hand and note contents Blue Lean & Co has forwarded me B/L for the 3-3 Bbl of Bulbs by Royal Mail which will have my moral attention, we are all disappointed by not having Capt Baker with us, but his having to go to Boston hurriedly is no doubt the reason why he could not come, I may here state, that I often have very favourable (title) reports of the young Plants growing and wherever I have distributed them in all parts of the Colony.
I believe this to be the best Coming Banana Country by and by we certainly have the Soil and plenty of Virgin land to grow them I shall probably write Capt Baker by this Mail

Mr. Loring Baker -
Port Morant, Jam.

Dear Sir:- It was at my request that Mr. Preston kindly consented to send to you for the specimens of Jam. ginger and nutmeg, that you so kindly took the trouble to procure and send to Boston, they are for the D. & L. Slade Co., the largest grinders of pure spices in New England. They are desirous of obtaining these specimens, illustrating these spices as nearly as possible as they appear in their natural state - for exhibition at the Food and Health Exposition which opens in Boston on October 5. The ginger plant is doing nicely and the nutmeg specimen seem to be second. In addition to these, they are very desirous (on

of obtaining, if possible, a small growing tree of each pimento and nutmeg, also a growing pepper vine, and a branch, if possible, of pimento with the berries on, in salt water. They can pack for a growing nutmeg, pimento and pepper, and wrap the pimento in salt water, if possible. If you can get them, and send to Mr. Burton I can assure you that the D. & L. Slade Co. who are laying embankment and a fine house, will appreciate it, and will take occasion to show their appreciation. I hope you will pardon me for thus imposing upon your time, for I know how busy you must be, for I had a chance to see how busy all the people on Burton Fruit Co. are, when I was on the Island last winter. Kindly extend to Mr. Joshua Baker, whose acquaintance I enjoyed last winter, my regards.

Mr. Loren D. Baker,
Port Morant, Jamaica, W. I.

My Dear Mr. Baker:-

My friend, Mr. Paul A. Merrill of Newburyport, Mass and his friend, Mr. Batchelder, of Boston, expect to visit Jamaica, coming by the Fruit Company's steamer, starting Jan. 11th.

Knowing how very desirable it is for strangers in Jamaica to know reputable

and his intimacy with Mr. Merrill I consider a sufficient guarantee of standing.

I think they intend to remain ten days or two weeks on the island, and wishing to save them all the inconvenience possible, I write you, knowing that with your customary kindness, you will render them any assistance possible.

I am still wrestling with the "young idea." Have been in Kentucky four years, and like very much, indeed. I am sending you one

people. I have given Mr. Merrill letters & introduction to yourself, to Capt. Baker and also to Mr. Joshua, and hasten to write you a few words in detail regarding Mr. Merrill.

Both Mr. & Mrs. Merrill have been friends of my mother and myself for years. Mr. Merrill comes of old New England stock, and holds a high position in society.

Mr. Batcheldor, I have met but once - at a dinner where he was very agreeable

of our last recital programs – we give them occasionally – to accustom the children to perform before others.

Did I not see Mattie's name among the list of "Lascelli" graduates this year? I suppose that Reuben has settled down into a comparatively sedate young man – if my memory serves me right, he was anything but sedate during my period of tutoring. I should like so much to see you all again. As I remarked to Capt. Baker (to whom I have just written, thinking that possibly the gentlemen might land at

(Port Antonio) I really wish I too, were about to take the trip to the Island.

My year at Bowden was a very pleasant one.

Kindly remember me to all.

Very Sincerely Yours

Dear Sir

This letter of congratulation and sympathy should have come to you earlier, but as I was very ill in bed when you arrived I could not write — feeling a little better to-day I send you a few lines —

I was very glad to hear of your safe arrival here, especially after your severe & painful experience on your voyage to America.

I grieve with you as you

are able coming as it were
from a watery grave, to
receive & return the affectionate
embraces of father & mother,
brothers & sisters & friends.
Perhaps in that terrible
moment the thought of home
came to you; you thought
you would die & "they" & you
would never meet again
in this world: but Providence
ordered it otherwise; an unseen
hand protected you from
the powers of the destructive
elements, so that your
life is preserved & you
are with your friends again.
Praised be the name of
the Lord —
I trust my dear Sir, that you

may be delivered in the
same way from every evil
thing that may threaten
us by & & in this life—
I pray with that your
life may long be spared
to be eminently useful
on earth; and when the
voyage of life is done with

BATH,

20th December, 1893.

Dear Sir

The calamity which resulted in the destruction by fire of the large and costly Wesleyan Chapel at Bath, on the 9th inst., is no doubt known to you and I am sure the occurrence has excited your sympathy. I am quite sure that everyone interested in the moral and spiritual welfare of the community must feel that at once the Chapel ought to be re-built. But *immediate* reconstruction, though most desirable, will be scarcely practicable unless the Ladies and Gentlemen of this community give aid such as is given spontaneously and generously in other communities in similar calamities.

I have been much encouraged by many expressions of sympathy; and I am assured that this appeal will be welcomed by many, and I trust by you as a favourable opportunity to show your sympathy in a practical form.

You will be interested to know that the members of the Church are already at work, and also that early in the New Year an appeal to the Wesleyan Church throughout the Island will be made, which will doubtless meet with a loyal response.

It will be a pleasure to acknowledge whatever help you may desire to give, and to add your name to the subscription list.

Awaiting the favour of a reply,

Dear Sir,

The Foundations of the Eastern & Western Gables of the new Wesleyan Chapel, Morant Bay, having given way, the Building was rendered very dangerous to worship in, & it became an absolute necessity that the defects be remedied at once. A heavy outlay

of over £100. therefore, has had to be undertaken to make the Building safe to worship in and to save from a much heavier expenditure, that must have been forced upon us in a very short time.

The reopening services will be conducted as per enclosed Handbill, & we shall be grateful for your presence there on each occasion –

MISS GEORGIE GRIFFITH,
REV. GILBERT LACY FARR.

MATRON:

MISS ALSINA M. ANDREWS, B. D.

ASSISTANT MATRON:

MUSIC:

MISS GEORGIE GRIFFITH.

OBJECT:

To give to Creole and East Indian girls a good education, religious instruction, and training in domestic and secular affairs.

GENERAL PLAN.

The school will be under the management of a Matron appointed by the Executive Board of Foreign Missions of Iowa Yearly Meeting of the Friends Church. There will also be appointed by said Board an Assistant Matron, all needed instructors, and an Advisory Board of three persons residing in Jamaica.

EDUCATION.

Instruction will be given in such branches of study as each girl may need to give her a good education. Vocal and instrumental music will be taught. Cleanliness of person and simplicity in dress and manners will be required.

RELIGION.

Bible Study will be pursued, religious instruction given, and an effort made to lead each girl into a Christian life and character. Books and papers of pure thought will be furnished, and a certain

time each day given to devotion. All will be required to attend church on the Sabbath.

LABOR.

Each student shall perform each day such manual labor as the rules of the institution may require, and special instruction will be given in the same. The best methods of cooking, housekeeping, and dressmaking will be taught, and such industries and arts be introduced from time to time as may be deemed best.

The girls will be furnished food, clothing, and medical treatment when needed.

TUITION.

A tuition of three shillings per week will be charged for each girl, if paid weekly, or if paid annually, in advance, seven pounds sterling per year. The tuition is expected to be paid by parents or guardians, but may be paid by friends of the institution or by the Mission Board.

Application for admittance should be made to the Matron or Advisory Board, who, together, will act on each application.

Each student will be bound by a contract with her parents or guardian to the absolute control of the institution for at least five years, subject to dismissal for cause at any time, and a failure to pay tuition may be sufficient cause for dismissal.

VISITORS AND VISITING.

Visitors will be admitted to the institution on the first Thursday morning and the third Friday afternoon of each month. Girls will not be allowed to leave the premises without the consent of the Matron.

We ask of all who may become interested in the school a careful consideration of its object and plan and a liberal support of it.

Dear Friend:-

Your kind letter, with its generous enclosure of Twenty five dollars toward the repair of our church building is just to hand.

Thank you very much indeed for your liberality and for the kind personal mention of myself and family, and also for your trouble in forwarding my letter to your brother Joshua. It is all just like you, and a scion of the good stock from which you come. May God continue to bless you even more in the future than he has in the already successful past. Yours is the first to arrive among the gifts we expect from our friends outside of our own town, and our hearts are rejoicing in it as a propitious harbinger of more to follow.

I am so glad to have had the personal privelege of having known you and yours, and trust to meet you all again sometime, if not in earth, then surely in that better land above, whither we are all bound.

Dear Mr. Baker,

We have mislaid the bath-house key, and can find it nowhere; if you have one to fit the lock of your door, would you be kind enough to lend it

to us; as we would like to
use it tomorrow.
Papa requested me to ask
you to lend him a pair
of mules to take us to
church on Sunday; as his
horses will be tired after
their journey to and from
Kingston.-

Dear Loren,

Do you remember my writing to you before my brother Frank went to Jamaica?

Well, here's another brother — not my own, but so conquered to Dave and me that we've taken him in to our hearts as a brother, especially since the death of

his dear wife in
October, who was one
of my sweetest friends.
I am writing to you
about him because
I think I under-
stand your nature
enough & feel
sure that you will
find Mr. Pennock
very congenial.
If he decides to live
in Jamaica, you
will no doubt
become the best of friends.
He would consider it a
real treat and a blessing
to have him in our community
if there were an opening for him.
Have and I were deeply dis-
appointed not to have a
visit from you in the fall.
Do! must all have a visit
together at the Cape next

The Committee ..... Seek Your Advice

Please Say What You Think Should be Done

BOSTON, October 21, 1898.

Dear Co-worker:

The great Sunday-School Convention held at Worcester, October 4 to 6, has gone into history as the largest and most helpful gathering of Massachusetts Sunday-school workers ever held. Nine hundred and ninety-three delegates registered, and undoubtedly there were several hundred pastors, superintendents, and teachers present who did not register, which, if they had, would have made the number of different persons attending the Convention at least 2,500.

Your Executive Committee congratulates you that you were able to be present to share in the pleasure and inspiration of the meetings and to take to your school the spirit of devotion and consecrated enthusiasm that pervaded every session.

It is more and more apparent that the work set for The Massachusetts Sunday School Association to do, is but just begun. Miss Vella and Mr. Conant can do much, but cannot do it all. More and better Home Departments, universal Rally Sunday, Primary and Junior Work, and

Normal Classes are some of the departments for coöperative work that can be improved and from which the schools and churches of the State may reap large harvests.

To do this work more perfectly we need at least one more Secretary who shall assist both Mr. Conant and Miss Vella, and give special attention to the Normal Work, aiding in the establishment of classes, giving information and encouragement concerning them, and perhaps, also, by the publishing of a monthly or bimonthly "RECORD OF WORK" which shall be the official medium of communication between the State Executive Committee and the Secretaries with the churches and schools of the State.

Your committee desires to know the wishes and seeks the advice of the delegates concerning this enlargement of work. It cannot undertake it without your coöperation. It believes that whoever carefully considers the possibilities of the future will wish to have the work undertaken.

We are, however, confronted with a debt for our current expenses of nearly $1,000, and we hesitate to incur the expense and salary of another Secretary unless we are assured that we would have the coöperation of the delegates who were present at the Convention. Your committee believes that a concerted effort made by every delegate will provide now for the debt for current expenses, also for the salary and expenses of another Secretary.

We come to you, therefore, with this proposition for immediate action, namely: Will you yourself, or by asking

one, two, three, four, or five friends to join you in paying twenty-five or fifty cents each, or more, send the amount of one to five dollars in the enclosed envelope between now and November 1? This will give you two Sundays in which to make your collections. The amount asked for from each one is very small, but when multiplied by many it would yield sufficient funds for the enlargement of this coöperative work.

Your committee is unwilling to act in this matter without the advice and support of the thousand or more delegates who were at the Worcester Convention. Please regard this amount as a special effort for a step in advance.

If you will send one to five dollars as suggested above, we will guarantee at least that $200 shall be added to the amount contributed by the delegates.

Yours in the work,

W. N. Hartshorn

Chairman.

A Special Word. We most earnestly solicit your advice in the suggested enlargement of the work of the Association and will appreciate a brief letter from you concerning it. Please answer on or before November 1, so that a report of the views and the gifts of the delegates to the committee may be made at its meeting on Monday, November 7, 1898.

9.48.1.1

TO THE VOTERS OF THE TOWN OF WELLFLEET:

At the urgent request of prominent citizens, I herewith declare myself a candidate from this Representative District, to the House of Representatives of the General Court of Massachusetts, and most earnestly request your vote at a caucus, to be held in Union Hall, Thursday Evening, Sept. 17th.

Yours very respectfully,

F. H. PERVERE.

Wellfleet, Sept. 5, 1896.

To the Voters of Barnstable County:

I believe that the office of Sheriff should be removed as far as possible from the influence of politics, in order that the incumbent may make his appointments, pursue his course of duty as he sees it, and without fear of loss of political favor, make his administration one approved of in every town in the County.

I did not go into the County Convention because I had rather go before the people of this County as an independent candidate.

Do you favor establishing the dangerous precedent of importing men to fill the offices in the County in which you live?

I believe that the thinking voters of this County will hesitate before voting against a Barnstable County man for one a resident of Plymouth County.

In the special Congressional nomination Cape Cod, all but one town, stood for a County man, and the press strongly advocated the same because he was a County man and qualified for the position.

I ask my friends to use every effort from now until the polls are closed, to crown my campaign with victory. Every vote possible should be cast, and from the support already promised I believe that the fight will be won, and that my candidacy will receive the support of a majority of the voters of the County, and that I will be duly elected to the office of Sheriff Nov. 8th, when the votes of the thinking people of the County are counted.

I earnestly desire your support, and will consider it a personal favor to receive your vote on election day, and will appreciate any good words you may say to your neighbors in my behalf.

Sincerely yours,

WM. N. STETSON.

My dear Mr Baker

Allow me to extend to you, Capt. Baker & your brother, my congratulations on the result of the race on the 24th. From the light wind we had here that day, with only an occasional slant of sea-breeze, I rather thought the day would prove a failure. But it just seemed to suit the Bostonia's draught & centre-board. At any rate you have beaten the Gilda and may be considered the champion of the Royal Y.C.C.

With kind regards
believe me

My dear Love

Yours of 29th to hand &
I have conveyed Capt Baker's
permission to Inspector Clarke
to construct the Range at
Retreat as being more suitable
than G. Grove.

As we will be applying to
the Government for a grant in
aid of the Targets (because the
Constabulary will also have the use
of the Range) will you ask your
father to write Insp. Clark
giving him the required permission
so that he may lay it before

the proper authorities. As the Target cost £12, you see it will be necessary to get the Govt grant as an assistance in purchasing: & also afterwards to make the Contributary take their share of trouble in keeping the range clean &c. &c.

I am glad to hear York has begun to mend & hope he will soon be all O.K. again. Give my kind regards to him & accept the same for yourself & the rest of your family.

Yours Sincerely
Geo. J. Mivart

Mr. L. D. Baker, Jr.,

Dear Sir:-

I received by Judhan your nicely worded article in reference to the regatta and will try to see that it is properly included in some reference to your family's going away which I will make next week. I decided that it would be better to wait and do it at that time as you are not to leave until after the paper is received.

Thanking your family and yourself for the kindnesses that I have received at your hands during the summer and expressing my appreciation of the same, I am,

Very truly yours,
